Success Lake Wildlife Area

Dove Hunting Opportunities 2008

The Success Lake Wildlife Area is located approximately eight miles east of Porterville and consists of approximately 1,400 acres open to hunting on land owned and managed by the United States Army Corps of Engineers. Approximately 130 acres of wheat were grown on the area for dove and other wildlife. Promoting special crops to attract doves and other wildlife and to provide additional hunting opportunity and success is a cooperative program with the United States Army Corps of Engineers, the Southern Tulare County Sportsman's Association and the Department of Fish and Game, through its Game Bird Heritage Program. **Shooting hours will be from 8:00 a.m. until sunset during pheasant season (November 8-December 21, 2008). In addition, dove hunting will NOT be allowed on the opening weekend of pheasant season (November 8-9, 2008). This is due to the large numbers of pheasant hunters, and safety is a major concern. It will also be closed to dove hunting on November 14-16, 2008, during the junior and disabled veterans pheasant hunts.** There is no hunter quota for this area and a permit is not required. If you have any questions, please contact the Department of Fish and Game at (559) 243-4005, extension 133. Good luck and good hunting.

CAUTION: WATER LEVELS MAY BE SHALLOW AND DEPTHS CHANGE FREQUENTLY. VISITORS ARE REMINDED THAT UNDERWATER HAZARDS AND WATER DEPTHS ARE NOT POSTED AND SHOULD BE CHECKED BEFORE USE.
